

Rossmel Abasto

Frontend | Fullstack Developer

Cochabamba, Bolivia | abastorossmel@gmail.com | github.com/RossmelMax | portfolio.rossmel.top

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building web and mobile applications with React, React Native, Next.js and TypeScript at a digital agency, from mockup to production. Experienced integrating REST APIs, Firebase and Supabase, and growing into Fullstack development (Node.js, Python/FastAPI, SQL). I use AI tooling (Claude Code, local LLMs, RAG) daily to research, prototype and ship faster without sacrificing quality.

TECHNICAL SKILLS

Frontend: React, Next.js, React Native, TypeScript, JavaScript (ES2023), HTML5, CSS3 / Sass, Tailwind CSS, Astro, Angular, Material UI, shadcn/ui, GSAP, Framer Motion

Backend & Data: Node.js, Express, Python, FastAPI, REST APIs, SSE, PostgreSQL, SQLite, Prisma, Drizzle, Supabase, Firebase (Firestore, Auth, Storage, Functions)

AI: Claude Code, LLM APIs (Groq, Gemini, DeepSeek), Ollama (LLMs locales), RAG, Búsqueda híbrida BM25 + embeddings, Prompt engineering, Agentes

Tools: Git, GitHub, GitLab, Bruno / Postman, Electron, Vite, Docker, Linux (Arch), Tailscale, Figma, v0, Vercel

WORK EXPERIENCE

Frontend Developer (Web & Mobile) — WANT Digital Agency

Jun 2022 – Jan 2026 | Cochabamba, Bolivia | Internship — Contractor — Full-time

- Built the frontend of 7+ client products (SaaS, mobile apps, marketplaces and websites) with React, React Native and TypeScript, from mockup to production.
- Built the web dashboard for CarX (formerly Vulcano), a management SaaS for auto repair shops: work orders, appointment scheduling, vehicle records and role-based dashboards.
- Developed React Native mobile apps for One Life Fitness (a gym chain in Cochabamba and La Paz) and OneHand (appointment management for a physiotherapy center).
- Integrated backend REST APIs (tested and documented with Bruno), handling authentication, loading/error states and role-based flows.
- Worked directly with the tech lead on tasks and code reviews, shipping features in short cycles under tight deadlines.
- Started as an intern (3 months), continued as a monthly-paid contractor and was hired full-time in 2025.

Graphic Designer — Brand Identity — Freelance

Jan 2023 – May 2023 | Remote | Freelance project (~5 months)

- Designed the brand identity (logo, color palette and typography) and a digital portfolio.
- Produced recurring social media graphics over ~5 months.

PROJECTS

AdvAI — Capstone · UDABOL (2026)

AI legal contract auditing with verifiable citations. Hybrid search: BM25 (SQLite FTS5) + bge-m3 embeddings fused with RRF over 3,267 articles and 971 supreme court rulings. The model only picks keys from the sources shown; the quoted text is inserted by the system — zero hallucinated citations.

Technologies: Next.js 16, React 19, TypeScript, Python, FastAPI, SQLite FTS5, Ollama, RAG, SSE

CarX — Client · WANT Digital Agency (2023 – 2026)

Management SaaS for auto repair shops (formerly Vulcano). Role-based dashboards (service advisor, mechanic, admin). Appointment scheduling with per-date availability and vehicle search.

Technologies: React, TypeScript, REST APIs

Agua Link'u — Community project (2026)

Offline-first desktop app for a rural community's water billing. Local SQLite as source of truth; Electron + React over IPC. Automatic AES-256-GCM encrypted backups to Firebase Storage, with manual restore.

Technologies: Electron, React, SQLite, Firebase, Node.js, jsPDF

Condominio Capadocia — Freelance (2025)

Common-area booking for a condominium. Roles: tenant, admin, guard. Interactive calendar (FullCalendar).

Technologies: React, TypeScript, Vite, Firebase, Cloud Functions

EDUCATION

B.S. Systems Engineering — Universidad de Aquino Bolivia (UDABOL)

2019 – 2026 · 8th of 8 semesters

Capstone: AdvAI — AI-powered legal contract auditing (hybrid RAG + LLMs).

Web Application Development — Solaning

2022 · Completed

Additional Training: Platzi, Coursera, Udemy, freeCodeCamp, Google for Education, W3Schools

LANGUAGES

Spanish (Native), English (Advanced)

SOFT SKILLS

Problem solving, Autonomy, Working under pressure, Fast learner, Client communication
